Career Objective

Aspiring Artificial Intelligence engineer and current Computer Science undergraduate with a solid foundation in programming and web technologies. Passionate about solving real-world problems using AI, and eager to contribute to innovation at Econet through meaningful collaboration and technical growth.

Education

Chinhoyi University of Technology

Bachelor of Science in Computer Science

Expected Graduation: June 2027

Technical Skills

- Languages & Tools: Python, JavaScript, HTML, CSS, C, C#

- Frameworks & Technologies: Flask, PostgreSQL

- Version Control: Git, GitHub

- Other: OCR and image processing

- Soft Skills: Excellent teamwork, clear communication, strong problem-solving ability

Projects

OCR Project v2.2

GitHub: https://github.com/Mikodzix/ocr_project_2.2

Developed a full-stack OCR web application using Python, Flask, and PostgreSQL to extract and analyze text from images. Built an intuitive frontend and RESTful API for text recognition and data management.

Personal Portfolio Website

Live: https://darystzw.github.io/kudrazw-porfolio

Built a responsive portfolio website to showcase projects, technical skills, and contact information. Focused on clean design and accessibility.

Certifications & Learning

In progress or self-study:

- Python and AI fundamentals (Coursera/YouTube/Independent study)

- Exploring machine learning algorithms and real-world applications

Extracurricular Activities

- Member of local programming and development communities

- Regular contributor to GitHub projects and hackathon ideas
